   CGPA: 6.28   Ananthapur

Z.P.HIGH SCHOOL   2018
   CGPA: 8.3   Ananthapur

PROJECTS

FRAUD APP DETECTION USING SENTIMENTAL ANALYSIS

- Fraud app detection using sentiment analysis involves analyzing user reviews and feedback to identify patterns of negative sentiment or suspicious behavior, which can indicate fraudulent activities.
- By monitoring emotions in app-related conversations, developers can detect potential security risks and take proactive measures.

SIGN LANGUAGE RECONGNITION USING AL & ML

- Sign Language is mainly used by deaf (hard hearing) and dumb people to exchange information between their own community and with other people. Sign language recognition using AI and ML leverages advanced algorithms to interpret visual data from hand gestures and movements.
- This technology bridges communication gaps, enabling real-time translation of sign language into text or speech.

Fashion E-Commerce Website

- Developed a fully responsive online clothing store using HTML, CSS, and JavaScript. Features include a product catalog, dynamic shopping cart, and intuitive user interface, offering a seamless shopping experience across devices.
- Focused on creating an engaging and user-friendly design for a modern e-commerce platform.
